

Group Profile

About Us

Vision

Afro Group strives to be a leading conglomerate providing technical and support function to the mining, power and industrial sectors in Africa.

Mission

In pursuit of its vision, the Afro Group will: Expand its global business network that enables it to source products for its customers timeously and in a cost-effective manner

Penetrate different markets within the African continent

Forge strategic partnerships throughout the African continent to provide value for our customers

Develop and grow our people wherever we operate

- Our Chemicals Division supplies Industrial chemicals, catalysts, resins and provides chemical engineering services;
- With specialized focus in the power, mining and industrial sectors in Africa;
- We provide chemicals for all applications, with a particular focus on water treatment, desalination, Reverse Osmosis, SO₃ and other processes;

- We apply our process engineering capabilities over a wide range of industries - chemicals, petroleum, waste treatment, alternative fuels, power generation, mining and more.
- We manufacture and also source from local and global manufactures;

Afro Chemical Engineering & Supplies (Pty) Ltd is part of the Afro-group and is 100% Black Owned

- Product List
 - Vanadium based Catalysts Sodium
 - Carbonate
 - Sodium Chloride;
 - Liquid Sulphur;
 - Calcium Chloride;
 - Acetone;
 - Alum Suphate;
 - Wax Removers;
 - Liquid Chlorine;
 - Desiccant
 - Ammonia
 - Molten Sulphur
 - Sulphuric Acid
 - Biodispersant;
 - Potassiumhydroxide;
 - Sodium
 - hexametaphosphate;
 - Peroxyacetic;
 - Hydrogen peroxide
 - Antiscalant;
 - Citric acid
- and many many more!!

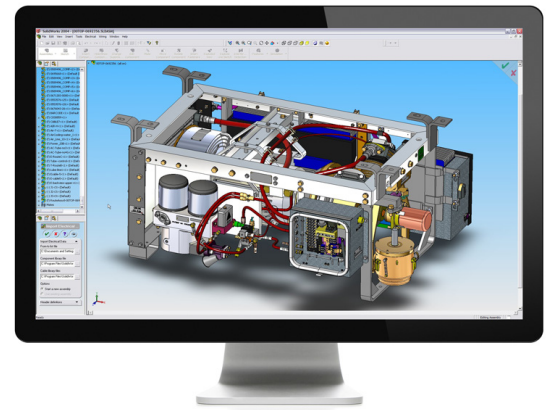

- Our Electrical & Mechanical Division supplies Industrial electrical and mechanical spares and components;
- We have access to local and global OEMs,
- We also use 3D technology for exact parts measurement and specification giving us the capability to reverse engineer components that are out of production and without original drawings;
- Afro Electrical & Mechanical Supplies (Pty) Ltd is part of the Afro-group and is 100% Black Owned;

Components we supply amongst other include:

- Cooling Water (CW) pumps and CW plant components
- Boiler Feed Pumps; boiler tubes
- Condensor spares;
- Steam Governor Valve components and spares;
- Deaerator spares;
- Feed hopper spares;
- Boiler components and spares;
- Milling Plant Spares;
- Oil Burner Spares;
- Ash plant spares;
- Superheater spares
- Draught plant spares and fans;
- Economizers and spares;
- Precipitator spares;
- Auxiliary Plants spares;
- Valve and actuators;
- Unit Transformer Spares;
- LP Turbine Spares
- Diaphragms
- C & I Components, i.e. Modules, switches
- Probes
- Shims
- Actuators
- Bearings
